

Welcome:

The MULTILATERALE 2027 in Ulm

The Idea Behind the MULTILATERALE

The Multilaterale exhibitions are international competitive philatelic exhibitions of Rank 1, jointly organised by the member federations of Belgium, Germany, Liechtenstein, Luxembourg, the Netherlands, Austria, Switzerland and Slovenia. This exhibition format has a long tradition: it was first held in 1988 in Salzburg – at that time as a trilateral exhibition. In Germany, Multilaterale exhibitions have previously taken place in Würzburg (1991), Donaueschingen (1998) and Haldensleben (2014).

Germany Hosts the MULTILATERALE 2027

From **28–30 October 2027**, the German Philatelic Federation (Bund Deutscher Philatelisten) together with the South-West German Philatelic Association will host the MULTILATERALE 2027, featuring all competitive classes. The venue will be the **Ulm Exhibition Centre**.

Running in parallel is the **International Stamp Fair**, offering a diverse range of dealers, a strong presence of specialist study groups, and the special competition “Postal History Live”. Together,

these events provide an ideal platform for exhibitors and visitors from all Multilaterale federations to present their collections, exchange expertise and enjoy meeting friends in a relaxed atmosphere. An international jury will evaluate all exhibits according to the currently applicable exhibition regulations.

Looking Ahead to IBRA 2028

One year later, at the same venue, the IBRA 2028, the FIP World Exhibition, will take place. Participation in the MULTILATERALE 2027 gives exhibitors the opportunity to qualify their exhibit for IBRA. FEPA Recognition will be applied for.
